Lillian August
“The best of archival design led us to the modern aesthetic — it is when form meets function that we reach our highest ideal” says Lillian August of her newest collection, Modern Living. Inspired by classic modern design, Lillian August has reinterpreted her furniture silhouettes with her signature artistic perspective, infusing clean lines with organic materials and striking methods.

Designed with a vision for casual yet elegant living, Lillian August has created a collection that inspires with its strong and classic modern style, while embracing comfort with luxurious and unique materials. Each design element in the Modern Living collection is taken to its highest ideal — polished metals highlight the durable beauty of industrial elements, and organic materials bring a handsome edge to graceful lines.

The Modern Living Collection is the product of a long family history inspired by Lillian and her son Dan. Their unique artistry and diverse points of view have come together here in a collection in harmony with today’s sophisticated casual lifestyle.
